Which Has Spent Most of Its Eight Years Around the Lockheed Factory at Burbank, Cal., and Knows Many Famous Pilots, Aboard Colonel Charles A. Lindbergh's Plane, Now Being Overhauled After Its Accident in the Orient. (Times Wide World Photos, Los Angeles Bureau.)

# Start Now—Make 1932 A Year of Improvement

**W**E are now passing through times that try men's souls. Never before has there been such a recognition of the fact that mental peace is one of the most important things in life. All of us must learn the lesson to accept conditions and cease worry. Worry never accomplished anything. It is purely negative. It reduces our resources, both mentally and financially, and simply must be eliminated if any real progress is to be made.

All of us have our problems and these problems can only be solved by ourselves and the part of us that is to solve these problems is our mind.

We have a very high regard for the great opportunity given the Institute to help men and women throughout this great land of ours overcome mental handicaps so that they can get a more keen enjoyment and a greater contentment out of life.

## QUESTIONS To Ask Yourself

### *What to Do in Order to Make Better Use of Your Mental Powers*

Most people today are living half lives.

Their mental engines are running at half speed.

They are not making use of their mental resources.

As Dr. Arthur Hadfield, of the Neurological War Hospital, has said: "We are living far below the limits of our possible selves, and there are open to us resources of power which will free us for a life of energy and strength."

In order to become successful we must free our energies from clogging inertias, open up the reservoirs of power which exist in every brain and make our minds keen and efficient.

Readers have at their service a method which will enable them to do this. And the best time to begin is now.

## 12 QUESTIONS

Make a test of your efficiency today by answering for yourself the following questions:

1. Are you a first-class organizer?
2. Can you originate valuable ideas?
3. Are you a logical reasoner?
4. Do you remain calm and unflurried when faced with a crisis?
5. Can you master difficult subjects easily?
6. Are you a persuasive talker?
7. Can you convince people who are doubtful or even hostile?
8. Do you decide quickly and correctly?
9. Have you an accurate and ready memory?
10. Can you concentrate your mind on one thing for a long time?
11. Are you ready to take responsibility?
12. Are you earning a larger income than you were a year ago?

If you are not satisfied with the answers you give to a good many of these questions, then you should use the coupon printed on this page and obtain, free of charge, full particulars of the Pelman Course.

## DEFECTS BANISHED

Amongst the defects which keep so many men and women back are:

Forgetfulness	Mind Wandering
Brain-Fag	Indecision
Inertia	Shyness
Weakness of Will	Lack of System
Lack of Ideas	Procrastination
Indefiniteness	Slowness
Timidity	Mental Confusion

Pelmanism banishes these and many other defects. It sweeps them away. It makes your brain keen, fresh, vigilant, and reliant. It renews your vigor. It enables you to press on unflinchingly to your goal.

The late T. P. O'Connor, Member of Parliament for years and a force in the world through his brilliant articles and equally brilliant speeches, was an ardent Pelmanist. He said:  
"Of two young men in business, one takes the Pelman Course and the other does not. Other things being equal, the young man who takes the Pelman Course will quickly pass the one who has not availed himself of this advantage in the race of life."

## QUALITIES DEVELOPED

Here are some of the qualities Pelmanism develops. They are qualities of the utmost practical value to you, whatever your position in life may be:

Concentration	Personality
Observation	Enthusiasm
Judgment	Self-Confidence
Initiative	Driving-Power
Will-Power	Self-Control
Resourcefulness	Reliability
Organizing Power	Salesmanship
Forcefulness	Memory

These are the qualities which make the difference between a leader and a follower, between one who dares and does and one who weakly drifts through life, between Success and Failure. And these are the qualities you can develop by means of Pelmanism.

## THE WILL TO WIN

Make up your mind to develop these qualities. Have done with the second-rate and the back seats. Get to the front. Let only the best satisfy you. Let Pelmanism develop your powers to their fullest capacity. Show the world what you are and of what you are capable. Now is the time. Fill in the coupon printed on this page. Mail it today to The Pelman Institute, 271 North Ave., New Rochelle, New York. By return mail you will receive free full particulars of the famous Course that has enabled so many men and women to succeed and the full benefits of which you can now obtain for yourself on reduced terms.

## THE PELMAN INSTITUTE OF AMERICA

# FOOTNOTES ON A WEEK'S HEADLINERS

[From The New York Times.]

## An Unemployed Boom.

**W**HAT's become of ambition? Here it is the end of January, the Jackson Day Dinner has come and gone, and yet there is a pathetically small number of Presidential booms in full swing. Mr. Hoover's hat has been thrown in for him. Two Maryland statesmen, a Governor and a former Senator, have openly committed themselves. Governor Roosevelt is clearing his throat. Hiram Johnson is making talk that is heard only every quadrennial. Eddie Cantor has taken over the Will Rogers act of four years ago. Most favorite sons seem orphans.

Nevertheless, a Presidential boom was launched a week ago in the presence of more than twice as many people as will be packed into the Chicago meeting place of both Republican and Democratic parties. In the University of Pittsburgh Stadium, 50,000 unemployed participated in the first rally of the "jobless party" and the candidacy of Father James R. Cox, rector of St. Patrick's, Pittsburgh.

Candidate.

It was Father Cox who led 10,000 unemployed to Washington a fortnight ago—a demonstration which was remarkable for its orderliness, even cheerfulness. The round-faced bespectacled priest gave his pledge that there would be no disorder, and it speaks well for his leadership that 10,000 followers redeemed that pledge.

Although he is a new figure to the headlines, Father Cox is no stranger to the headlines. He has led pilgrimages before, but to Rome, not Washington. Every year for the last six years he has conducted pilgrims to be received by the Pope and last Summer he received at Vatican City a silver medal in recognition of his six visits. It was Father Cox and not the Pacific Coast Mayor who first broke the silence at the tomb of the Unknown Soldier in Paris with a speech. That occurred four years ago when Father Cox addressed the Unknown Soldier in behalf of Sacco and Vanzetti. Three months later he returned to the headlines with plans for an airplane flight from Pittsburgh to Rome, but only the plans got into the air.

## The Diplomat Grew.

**T**HE official mortality of American Ambassadors to Japan is high—higher, in fact, than that of other of our diplomats; our envoys go and come in almost as rapid succession as changing Japanese governments. Within a decade we have sent to Japan six different Ambassadors, which is rotation in office with a vengeance. Within the last two years there have been three, all of them Harvard men. William R. Castle, present Under-Secretary of State and Harvard 1900, was succeeded by W. Cameron Forbes, Harvard 1892, and now Mr. Forbes has resigned and his place will be filled by Joseph Clark Grew, Harvard 1902.

Mr. Grew's new detail means he must move from the Near East to the Far East, for he is our present Ambassador to Turkey, the first and

only Ambassador the United States has sent to Mustapha Kemal's republican dictatorship. The Lausanne treaty with Turkey was negotiated by Mr. Grew when he was Minister to Switzerland, and then, after a hitch as Under-Secretary of State, he went to Turkey, where he is one of the most popular foreigners. He is a brother-in-law of J. P. Morgan.

Mr. Grew has had almost the longest term of service of any of the State Department's career men. The year after he left college he went big-game hunting and then, much to the displeasure of his family, accepted a clerk's post in the American Consulate at Cairo. Those were before the days of competitive examinations for appointment and promotion. "My own examination was unusual; I had to shoot a tiger to draw President Roosevelt's interest," Mr. Grew once wrote.

Before the United States entered the World War Mr. Grew was Secretary of Legation and occasionally Chargé d'Affaires at both Berlin and Vienna. President Wilson chose him to be secretary of the American delegation to the Paris Peace Conference, an appointment which carried with it Ministerial rank. "I think we earn our modest salaries," he says of American diplomats. "I believe no more congenial occupation exists than to see a map of the world stretched out before you, to watch events and developments in many

Succeeding.

corners of it and to be ready to move at any moment to protect and promote American interests."

\* \* \*

## Temperless Temperament.

**U**NTIL the eve of Mischa Elman's forty-first birthday last week, the musical season had supplied singularly few lively headlines. To be sure, Cardinal O'Connell delivered a blast against crooners, but that only made things approximately unanimous. Lawrence Tibbett cut his foot on broken glass, but, after all, a sore foot is not a sore throat. There have been no temperamental outbursts at the Metropolitan, and this season no horse has stepped upon a Wagnerian singer—or was it the other way around? We had reached the doldrums.

Perhaps that is why the headlines were so thick and black when Mischa Elman told the Philharmonic-Symphony Orchestra to "look for another soloist" after an agreement could not be reached upon which concerto the violinist would play. And so, upon the date originally scheduled for a joint recital, the Philharmonic will play in Brooklyn without Elman, while the syrupy tones of Elman's violin will be heard in Carnegie Hall without the Philharmonic.

Elman wished to play the Brahms concerto with the Philharmonic, but this was vetoed because the same

Soloist.

composition will be played with the orchestra later in the season by young Yehudi Menuhin. In this there is irony, for Elman was once a sensational youthful prodigy himself.

Twenty-four years ago his first American visit was heralded in this headline: "Musical Prodigy Coming. Son of Poor Russian Schoolmaster Has Developed Remarkable Talent." It was also declared that he was regarded as "one of the most remarkable musical figures of this generation"; and what was said then is not being unsaid of Elman now. Since then, the shock of curly hair has receded somewhat. The Russian boy has become an American citizen. Chess has yielded to baseball in appreciation. And, says his wife, a San Francisco girl, "my husband has temperament, of course, but he has no temper."

\* \* \*

## A Military Handy Man.

**A** ONE-TIME colloquial statement of reassurance was that "everything's McCoy." Transpose that to "McCoy's been everything," and it's a slight overstatement of the many jobs which have fallen into the lap of Major Gen. Frank R. McCoy, the American member of the League of Nations commission which is on its way to Manchuria to investigate and report.

"Things the Army Does Besides Fight" is the title of a recruiting leaflet. McCoy's done 'em. He is the army's handy man. He has governed subject people as well as fought them. He has been military aid to two Presidents. He was in charge of American Red Cross relief work in Japan after the great earthquake of 1923. He has governed Cubans and Filipinos, investigated Armenians, attempted to conciliate Paraguayans and Bolivians, and he has supervised Nicaraguan elections.

No American plebiscite has had such simplified, effective precautions against plural voting as those taken in the election General McCoy granted the Nicaraguans. After each voter cast his ballot one of his fingers was dipped in a mercurio-chrome solution. A day's scrubbing might remove the stain, but by then the polls would be closed.

General McCoy was a "Wood man." About thirty-five years ago an army surgeon was referee of a West Point-Brown football game. It was not a gentle game, but the quietly authoritative manner in which the referee kept it under control impressed the army doctor upon the memory of Cadet McCoy, one of the players. Two years later Lieutenant McCoy was a tireless, dashing cavalry officer in Cuba. The football referee was his brigade commander. With another General the brigadier reached a swollen stream. "Is that river fordable?" he asked of the commander of their escort. "Yes, sir," said Lieutenant McCoy when he had reached the other side.

"I think I'll ask for that young man to be my aide," said one of the Generals.

"Too late," said the brigade commander, Leonard Wood, "I chose him when he was crossing the river."

S. T. WILLIAMSON.

Wood Man.

A PROMINENT VIOLINIST CELEBRATES HIS BIRTHDAY: MISCHA ELMAN

With His Wife and Children, Josef and Nadia, at a Family Party in Their New York Home Which Marked the Forty-first Anniversary of His Birth.

Wrap. Imported by Sidney Blumenthal.  
(New York Times Studios.)

**DURENE COTTON LACE**  
in a New Pattern and a New Color, Orange-  
Coral.

**AUGUSTABERNARD'S YOUTHFUL FROCK**  
in Black Net and Cream Lace. Imported by Bonwit Teller.  
(Pagano Studios.)

**LINE OF SILVER VERTICAL BUGLES**  
Form Intricate Patterns on This Evening  
Gown of White Chiffon. From Mary Walls.  
(New York Times Studios.)

By GRACE WILEY.  
THE higher-than-waistline evening wrap, which is in reality nothing more than two sleeves and an abbreviated back barely long enough to conceal the décolletage, has obvious advantages for those occasions that may demand a quick change from the informal dinner costume to the very formal evening gown. But for the frankly gala evening, the contrasting wrap of radiant velvet, in either wrist or three-quarter length, is to be preferred.

## Informal Clothes for the Southern Traveler

**SCARF FROCK OF CELANESE FAILLE CREPE**  
Is Trimmed With Fine Rows of Tucks at Pockets, Belt and Cuffs. The Monogrammed Scarf Is Brilliant Green.  
(Forbath & Rejane.)

## THEY SAY

"IF WINTER COMES—"

By SILAS STRAWN,

President, Chamber of Commerce of the United States, in a Radio Broadcast.

NO one can tell when we shall get over our acute economic troubles. With the coming of Spring, I am sure we will see the sun again begin to shine, somewhat dimly at first, but with increasing vigor, through the overhanging gloomy clouds.

We are now standing firmly on the ground and are thinking about our governmental and our own affairs more intensively and constructively than we could when we were soaring in the clouds.

We get nowhere by scolding our bankers for being too liberal in making foreign loans. Without discussing the wisdom or folly of their action, we must assume, as Potash said to Perumutter, that "the milk is spoiled; it don't make no difference who left the ice box open." Perhaps we are all subject to the criticism of having been foolish in the past. Therefore, I submit, that, instead of holding post-mortems on subjects with which we are already too familiar, we should devote our attention to the present and the future. Have not too many of us become chronic hypochondriacs? Has not the time come when we should cease casting about for nostrums to cure our melancholia and join the boys in a few setting-up exercises?

### AWAKENING CONSCIENCE.

By SAMUEL SEABURY,

Counsel for the Hofstadter Legislative Committee, Speaking at the Dedication of Seabury Hall of the General Theological Seminary.

YOU need not be discouraged at corruption in municipal government. It is nothing new. We have had it in this city for several generations. History shows the attempts that have been made to dislodge it and to remove the people fattening upon it. And every one of the old fights seemed in vain.

I do not feel pessimistic about conditions in our city today. I believe we have reason for courage and hope. We are told that people are slow to respond and indifferent to conditions. The important thing, it seems to me, is to get people to think correctly. Then they will act correctly.

This will not happen till the people see what the facts are, come to believe that things ought to be changed and work up the courage to fight. When this time comes the beginning of the end has come. That, I believe, will occur in the near future.

### HEMISPHERIC TIES.

By JOSE M. F. CASAURANC,

Ambassador from Mexico, Speaking at a Luncheon in His Honor Given by the Pan-American Society.

OUR countries await your capital as much as your industries need our raw materials and our special agricultural products. Since the relations of the two Americas are built upon the foundations of the most sincere reciprocity and upon less selfishness in our purpose, we will have constructed the greatness of our continent—a greatness beside which all past splendors of America, as well as the rest of the world, perhaps, will look small, as far as the general well-being of the human masses is concerned.

Closer economic relations will result in closer spiritual ties. We will make out of our differences of products and economic means the reason for our understanding, because we will complete one another. We will make, then, out of our spiritual diver-

THE NEXT ACT ON THE BILL!

gences the cause of our mutual interests and of our congenial curiosity to know each other better, and we will make, finally, out of the contact of the two different cultures not a cause for antagonism but an occasion for cooperation, comprehension and the pride of being inspired in a real Americanism.

### SHE RATHER LIKED US.

By VICKI BAUM,

Playwright, in a Broadcast From Berlin on Her Impressions of America.

THE American people—they were so nice, so kind, so human, so friendly and polite, quite different from the cold, hard-boiled, businesslike Americans I was prepared for. It is curious how little one nation knows about another. What do you know about Germany, after all?

I was often asked what I would like to take with me from America to the Continent. Well, the first thing would be the nice people, the nice disposition of the American people. In America, all classes enjoy the dainties of life, even in bad times, and that makes life easier. If I could have a shipload of American humor to take with me, that would help a lot, too.

Some of the American things I like best: The American ice box; American shoes; the little, inexpensive things; the possibility to get cute dresses for very little money; the slenderness of the girls; the politeness of the men; the cartoons in the newspapers; the nice soft drinks; the perfect roads and the high speed one can drive—oh, not to forget the American jazz.

### STRANGLING TRADE.

By SIR WALTER LAYTON,

Editor, The Economist, London, Speaking to the Anglo-French Students Conference.

THERE must be some sanity in tariff policy. Goods must be allowed to move; otherwise there can be no settlement of the underlying financial basis of international commerce, which will be reduced to a pure barter basis.

A country like France will not reduce her tariffs if she has got to reduce them to the just and the unjust alike—if she has got to let in the countries that put on a high tariff

against her as well as those who have got a low one.

We must get some solution of the tariff issue. It cannot go on as it is at present. The crisis has made it definitely worse. The fall of prices has made every tariff which is specific enormously higher. The money chaos means that there are, in many countries, not only tariffs, but an absolute stranglehold on trade through means of exchange control.

Every conceivable device is being operated, each country trying to save itself by strangling its neighbor in the attempt. The commerce of the world is down to something like one-half of what it was two years ago. The shipping of the world is laid up.

### THE BANE OF PERJURY.

By E. P. MULROONEY,

New York Police Commissioner, Speaking Before Branch 184 of the Holy Name Society.

IF our social system is to stay safe for the average citizen, something must be done about the laws on perjury. I have heard witnesses make their statements in connection with crimes. I know that they have repeated them to the District Attorney or the Assistant District Attorney. I know that they have gone before the Grand Jury and given the same statements. And yet when the trial comes, they turn around and repudiate everything.

People say, "They are afraid they will be bumped off." There is nothing in the record to support that. They do it to help the prisoner who is up for trial.

There is no reason for blaming it on rackets, at least not in New York City. Any man can come to the responsible authorities and state the case, and he and his property will be given ample protection. Furthermore, it is the duty of citizens to whose attention such things come to report them. It is the duty of the citizen to do so and the police and the District Attorney stand ready to do their duty as soon as the citizen has done his. If the citizen fails in his duty the authorities have to fight blind.

[From THE NEW YORK TIMES.]

## IN A WEEK

Thrift Week.

THERE was a rich city, and she had a great sorrow, For she had no money, no money could she borrow. She moaned and she murmured, and at last said she, "I must try to think and figure what is wrong with me."

She thought and she figured and she said, "I know! I must cut down a little on the money that I blow. It will hurt me, I'm certain, it will mean a painful wrench, But I'll start in reducing; I'll immediately retrench!"

Well, scarcely had she finished with her prodigal pranks When here came several of the very nicest banks. They noticed she was sorry for her wasteful deeds, So they lent her twelve millions for her various needs.

So all you little cities that are longing for a lift, Just learn to practise prudence and economy and thrift, Refrain from flinging taxes round as some towns do, And very soon the bankers will be kind to you!

It may be nothing for the human race to worry about, but two spiral nebulae are said to be hastening away from this part of the universe at the rate of 15,000 miles a second.

What has become of the old-fashioned man who used to brighten the dull social hours by telling us how many miles he could get out of a gallon?

"Declares Mellon Active in Business. Talk of Impeachment." When a business man can manage to maintain a little activity in these times you might think everybody would hurrah about it instead of talking of having the law on him.

The Mexican State of Chihuahua offers a decree of divorce by mail in one day, residence not required. How about a tariff duty to protect our infant separation industry from cheap foreign competition?

### The Frontier Spirit.

"Your money," growled the bandit, "or your life!" "This," said the citizen, "is an outrage!"

"No, no, my misinformed friend," the bandit responded, "it is merely the good old American frontier spirit asserting its independence of the restraints which a tight-minded organized society imposes on the right of the individual to seek happiness in his own sweet way—that spirit, I may add, which is today so highly commended by many of the best minds of our rostrum and our press. Come across with your purse, you slavish observer of the law!"

So saying, he smote the citizen without mercy.

A fish with feet is reported at Sea Cliff. It eats soles, the paper adds.

Enthusiastically the European powers favor disarmament, at least for Germany, so a hopeful start is made.

Monarchs and democrats are all in the same fix nowadays. King George has had his old crown reblocked.

# THE WALTER J. BLACK One Volume Library IDEA

*A whole library of great literature in every volume. Collected works of the world's immortals bound in genuine sheepskin at the lowest price in book history.*

## Limp Leather Classics

### What an Opportunity

Act *now* to own these beautiful volumes of lifetime worth at the incredibly low cost of \$1.98 each

Whether you choose all 20 books or only *one*, you will secure a true LIBRARY. Every volume includes the contents of many regular books—each volume is the collected works of one of the world's greatest writers: Shakespeare, Voltaire, Oscar Wilde, Balzac and 16 others. Unabridged, not a line, not a word omitted.

Read the list of volumes carefully. Select a library now—of *one* volume, or *several*. There is no finer gift, none more worth while for yourself, for your friends, for your associates, than a library of these famous Limp Leather Classics. Their value can never be measured in dollars and cents—yet the amazingly low price at which you can now buy them makes the Limp Leather Classics the most practical—as well as the finest—book purchase you can make.
